

Complete Support

In addition to being the only Montana provider of hospice services accredited by the prestigious Community Health Accreditation Program (CHAP), RiverStone Health is the only hospice provider in the area to offer a complete continuum of hospice services. We provide care and support for patients in their private residence, in our residential facility—the Horizon Hospice Home, and in the RiverStone Health Inpatient Hospice Home.

Medicare's hospice benefit provides coverage for services at our inpatient hospice home. Most private insurance plans also provide complete coverage. Our team of hospice professionals will handle all arrangements for eligible patients and help determine if support at our inpatient home is the best option.

Available to Everyone

Not only do we provide the highest quality care and service, we provide comfort for everyone who qualifies for hospice. No one is ever turned away from RiverStone Health Hospice Services because of financial limitations. Generous donations from the community along with our reduced fee payment scale allow people with limited financial resources to receive hospice care provided by RiverStone Health. We believe that everyone should have the opportunity to live their final days with dignity.

Connecting you to a better life®

Inpatient Hospice Home

At RiverStone Health, we recognize that home is the best place for hospice patients. However, remaining at home isn't always possible. That is why we built the RiverStone Health Inpatient Hospice Home, a twelve-bed facility on the campus of St. John's Lutheran Ministries.

The inpatient home provides a warm and comforting atmosphere dedicated to optimizing quality of life when life expectancy is limited. Staffed 24 hours a day, 7 days of the week, our caring team of hospice professionals includes: RNs, LPNs, physicians, nurse practitioners, social workers, chaplains, dietary and therapy providers and volunteers. Our multidisciplinary approach enables patients and their loved ones to make the most of every day.

Care Givers Working with Hearts and Hands

The RiverStone Health Inpatient Hospice Home is a natural extension of the RiverStone Health mission - To Improve Life, Health and Safety. The home allows us to provide terminally ill patients and their families an alternative to hospital care for inpatient services.

Accommodations

The peaceful, home-like environment of our 8,400 square foot home is designed to provide comfort and convenience, featuring:

- Private bedroom suites with private bath
