

Opening September 2011

In September 2011, we are opening the RiverStone Health Inpatient Hospice Home, a twelve-bed facility on the campus of St. John's Lutheran Ministries. Our new inpatient facility will provide a warm and comforting atmosphere dedicated to optimizing quality of life. Staffed 24 hours a day, 7 days of the week, our caring team of hospice professionals enable patients and their loved ones to make the most of every day.

Complete Support

We are the only Montana provider of hospice services accredited by the prestigious *Community Health Accreditation Program (CHAP)*. Additionally, RiverStone Health is the only hospice provider within a 200 mile radius to offer a complete continuum of care and support to hospice patients: in private residences, in our residential facility—the Horizon Hospice Home, and beginning September 2011, our inpatient home.

Medicare's hospice benefit provides coverage for services at our inpatient hospice home. Most private insurance plans also offer complete coverage. Our team of hospice professionals will handle all arrangements for eligible patients and help determine if support at our inpatient home is the best option.

Information

If you would like more information about the full continuum of care available to hospice patients and families, contact RiverStone Health at:

Caregivers Working with Hearts and Hands

The RiverStone Health Inpatient Hospice Home is a natural extension of the RiverStone Health mission : *To Improve Life, Health and Safety.* It allows us to provide terminally ill patients and their families an alternative to hospital care for inpatient services.

Accommodations

The peaceful, home-like environment of our 8,400 square foot home is designed to provide comfort and convenience, featuring:

- Private bedroom suites with private bath
- Unlimited visiting hours, with exception of patient request
- Ability for family member to spend the night
- Community kitchen with 24 hour use
- Enclosed family room for private time
- Internet access
- Serenity garden
- Sun room
- Memorial area

Personal Care

Our dedicated team of hospice professionals provide the very best individualized clinical care. Services provided for patients and families include:

- Hospice inpatient care
- Respite care
- Residential care
- Bereavement support groups
- Individual and family counseling
- Volunteer services
- Quality of life enhancement services
- Educational programs

*RiverStone Health Inpatient Hospice Home...
maintaining comfort and peace of mind at the end of life.*
