

Comfort and Care

The RiverStone Health Horizon Hospice Home provides comfort-oriented care, which neither hastens death, nor prolongs life. Together with patient and family, hospice professionals and volunteers, we help decrease physical, psychological, social, emotional, or spiritual distress; while providing support to caregivers.

Kind Words from a Client

"HHH is just 'such a blessing' to me, my family and especially my mother. The quality of care given to my mother is amazing!! She has always been treated with such respect, consideration and kindness -- the way we want our mother treated and the way she deserves to be treated. Our family has always been welcomed into the home and also treated with the same respect and consideration. Because we no longer are in a situation where we need to be daily advocates for her care, we have regained the precious gift of mother-daughter time. When there is no guarantee of time together tomorrow, it's truly a blessing to be able to have that special time together today. A wonderful facility with an incredible staff!!"

- Carol Hefenieder, Daughter of Horizon Hospice Home Client
